For People whom notice 1:11 - 11:11 and Patterns

This is a collage of ideas since nobody really knows what it means. There will be those whom claim to know, but they have just convinced themselves of their own belief system as I have done.

Back in the year 2005 I was asleep and began to awake and recall I was actually chatting with a man as I was awakening from a sleep state.. I said "2018! I don't think I can last that long! He replied "that's what the man said"

I more recently had an influx of the number 231 and 111. I decided to multiply the two numbers together. The total is 25,641. This was the second attempt not over one hundred tries to try and land on something I wanted.

The first attempt was 111x111 which from the date below landed one month after [Ron Wyatt](#) claimed to have discovered the Ark of the Covenant in Jerusalem. Maybe this date is the last time he went into the chamber after it was discovered. I have been unable to find any more dates other than 1-6-1982 related to his discovery.

I decided to take the date 5-14-1948, which is the date Israel became a nation. Much to my surprise it landed in the year 2018 using the 25,641 days from above. To be exact on 7-27-2018. I Googled the date to see there is a total lunar eclipse (blood moon) over Jerusalem that day. [LINK](#)

Another Christian woman whom sees 1111 like I do had a dream a few years back that she posted on a forum. In the dream was the number 14 and then 18, but the 18 was circled in red. My interpretation was 2018 was the red 18 on the lunar eclipse date. I wasn't sure about the 14 yet.

It wasn't until a Jehovah's Witness posted something about 1914 that I took another look. Basically taking **2,520 years** (a number from book of Daniel) from 7-28-1914 (WW1 Starts) will land you around the destruction of the first temple. The number 14 then makes sense as 1914 in her dream. This date of WW1 is off by merely 24 hours from the lunar eclipse date on 7-27-2018.

For dating the first temple destruction it's rather difficult to be exact on BC dates. Here is a link on the subject matter. [LINK](#)

The prediction and how 1111 fits here.

From the time of the eclipse on 7-27-2018 + 2,520 days will land you in the year 2025 A.D. I believe this is the lunar period of 7 years leading up to the end involving the Anti-Christ/ Alien agenda.

2025 A.D. subtracting 1914 A.D. is **111 years**. At the end of the 2,520 day period most are dead and thus begins the 1,000 year reign.

He threw him into the Abyss, and locked and sealed it over him, to keep him from deceiving the nations anymore until the thousand years were ended. After that, he must be set free for a short time - **Revelation 20:3**

The year 3025 AD satan released (recall "Satan" is anything that is considered an adversary in scripture) for a short time after **1,111 years** from 1914 AD .

For understanding what Satan is refer to my articles page here. [LINK](#)

Let's back up one second on something I noticed just this morning on 12-19-2016. I decided to calculate 1,290 days from the Eclipse on 7-27-2018. This results in the date of 2-6-2022 (M/D/Y). The reason being is from this scripture from my article on [666/616 LINK](#)

(Dan 12:11-12 NAS) "And from the time that the regular sacrifice is abolished, and the abomination of desolation is set up, there will be 1,290 days. ¹² "How blessed is he who keeps waiting and attains to the 1,335 days!

I of course think that around +/- 3 days from 7-27-2018 the world will see the take over of the planet by forces that can inflict such a Mark forced upon the populous. Aliens or a Human Government backed by Alien forces. Then adding 1,290 Days will land you on 2-6-2022.

I also believe that the Ark of the Covenant will be revealed to the Earth at around this time or 45 days later as it says " "How blessed is he who keeps waiting and attains to the 1,335 days!"

Ron Wyatt claims to have found the Ark of the Covenant on 1-6-1982. I always knew that there is no such thing as coincidence, thus this is an important date in the time leading to the end. If we take 1-6-1982 to 2-6-2022 the result is 14,641 days. What's the big deal with this number?

14,641 is 11x11x11x11 which people around the world see 11's frequently including myself and I find it interesting that it happened to be that many days leading up to 2-6-2022.

If my theories are correct then on or around 7-27-2018 we shall see either Aliens or Governments working with them take over the planet. Perhaps then on 2-6-2022 the Mark of the Beast will begin. They are going to feed you complete stories about themselves claiming they created us as so forth or they are "space brothers here to help mankind" or something along these lines. Most will fall for it because people don't believe in the Bible any longer. These of course are Serpents also referred to as Satans. If you don't understand what I mean then you have to spend time reading my articles on that particular subject. [LINK](#)

The end result is most take this Mark of the Beast whatever it may be (your choice of them before God is my theory) then total destruction of those whom have taken the Mark not too many more days from the timeline I have provided.

Additional Theory:

I would also like to add this theory into the mix. Some believe that Jesus was born on 9-11-3 B.C. This makes more sense as they don't tend to their flocks when its freezing in December in Jerusalem. Here is a [LINK](#)

The following is just another theory:

Matt 27:46 And about the ninth hour Jesus cried with a loud voice, saying, Eli, Eli, lama sabachthani? that is to say, My God, my God, why hast thou forsaken me?

Matt 27:50 Jesus, when he had cried again with a loud voice, yielded up the ghost.

The scriptures say Jesus died around the 9th hour. By reading this [LINK](#) we can see the 9th Hour appears to align with 2PM

to 3PM.

An interesting theory is presented by Ron Wyatt whom says when the rocks were rent, it opened a crack below him to allow his blood to hit the Mercy Seat of the Ark of the Covenant merely 20 feet below hidden in an underground cavern. You can read that by clicking [HERE](#).

Matt 27:51 And, behold, the veil of the temple was rent in twain from the top to the bottom; and the earth did quake, and the rocks rent;

The Ark, he says had been placed there hundreds of years before. Perhaps his blood arrived at 3:11 PM on the Mercy Seat 20 Feet below through the cracks to complete a proper Jewish sacrifice. Ron states there was human blood found there.

What got me thinking about this was a song called "Remember me as a time of Day" by Explosions in the sky that started to play on my Pandora.

What if these time syncs we all get at the 11th of each hour are nothing more than Jesus sending out a reminder to every time zone each hour at the 11th of the hour that he died for mankind. This is of course a theory but could explain the numbers.

The Jewish Temple

Eleven strands of goat skin were used for the Temple as instructed by Yahweh.

Ex 26:7 And thou shalt make curtains [of] goats' [hair] to be a covering upon the tabernacle: eleven curtains shalt thou make.

Ex 26:8 The length of one curtain [shall be] thirty cubits, and the breadth of one curtain four cubits: and the eleven curtains [shall be all] of one measure.

Here is an ancient Jewish coin depicting the first Temple with the Ark of the Covenant placed within the center of the four pillars.

Here is a [link](#) to more details about the Eleven curtains of the temple. Very intriguing and you should look it over.

If 11 was a bad number the Almighty wouldn't have anything to do with the number 11 being part of his temple.

Ezekiel 40:49 The length of the porch was 20 cubits, and the width 11 cubits.

Ezekiel's vision of the courtyard of another temple he foresaw was 11 cubits by 20 cubits. These numbers aren't pulled out of thin air and have a specific reason for the dimensions. Would the Almighty choose the number 11 once again for a measurement if he detested it so much?

Jesus was born 77th from Adam that is **11x7**

We are told in **Matthew 18:22** to "forgive 77 times" which is **11x7** again

The Dead Sea Scrolls were discovered in **11** caves

Jesus is believed to have died at age 33 or **11x3**

There are 66 books in the Bible that is **11x6**

There were 55 **Prophets** in the Bible that is **11x5**

There are **11** Dimensions in "M Theory"

Ariel Sharon

The **11th** Prime Minister of Israel died on **1-11-2014**. This is pretty interesting.

Rune Stones Americas

Here was an interesting find awhile back as well. These Rune Stones were found with the dates "**November 11, 1012 A.D.**" and another "**November 11, 1017 A.D.**" carved into them. I must say if you take the time to do this into a stone then there might a reason for it and this 11-11 was significant back then.

Here is the link to [Rune Stones Article](#)

Some (11:11) November 11th Events:

I'm sure there are more but here are some highlights

- **The Mayflower Compact** was signed on **November 11, 1620** in what is now Provincetown Harbor near Cape Cod. It was the first governing document of Plymouth Colony which later became the most powerful nation on Earth.

- **World War I** was ended on the 11th hour of the 11th day of the 11th month (Very odd don't you think)
- **The Berlin Wall** was dismantled starting on 11-11-1989
- **Yasser Arafat** died on 11-11-2004 (*A trouble maker to Middle East Peace*)
- A quote from **11-11-1755** A.D.

"Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety." - BENJAMIN FRANKLIN, Pennsylvania Assembly

I figured this number out after seeing 6:31 on the clocks all the time.

The **1111th** minute in the 1,440 Minute / 24 hour day is "**6:31 PM UTC**"

Some other numbers people might see that are related to 11:11

$$101 \times 11 = 1111$$

$$121 \text{ is } 11 \times 11$$

$$1221 \text{ is } 111 \times 11$$

More 11's in scripture

Genesis 37:9-10

Gen 37:9 Then Joseph had another dream and told his brothers about it. "Listen to this dream," he said. "The sun, moon, and **eleven** stars bowed low before me!"

Gen 37:10 This time he told his father as well as his brothers, and his father rebuked him. "What do you mean?" his father asked. "Will your mother, your brothers, and I actually come and bow before you?"

Joseph had 11 brothers whom later with Joseph became the 12 Tribes of Israel. He was saying his 11 brothers as well as his father and mother would bow down to him.

This aligns with the symbolic description of the Woman of Revelation:

Rev 12:1 Then I witnessed in heaven an event of great significance. I saw a woman clothed with the sun, with the moon beneath her feet, and a crown of twelve stars on her head.

Parable of the 11th Hour

(Jewish days start at 6 AM thus this is 5PM)

Matthew 20:6-16

Mat 20:6 And about the eleventh hour he went out, and found others standing idle, and saith unto them, Why stand ye here all the day idle?

Saros Numbers

I've also thought of numbers as being possible **Saros** numbers which are numbers given by **NASA** to categorize periods of time with certain eclipses and so forth.

Some of my 11:11 - 1:11 experiences and numbers of the like

It was about the year 1999 that I started to notice the number **911** all the time. How does one notice a number more than any other? Well I guess until you experience this you will never know. For Example, I could turn on my phone to check the time and there it was 9:11 AM or PM. This is a year + before **Sep 11th 2001**.

I noticed the number **911** enough to become alarmed at what on earth makes me notice it so much. It got to the point that my friends would even play along because they noticed I noticed it. I was making room on my older PC at the time and wanted to install some software. I deleted a bunch of things and then checked only once to see how much room I have left on my hard drive and it was **911** megs free.

At this point I was like wow that's too weird because it just kept popping up already before all of this. I started to tell my friends that the only thing I can logically make this out to be might be Sep 11th of some year an unknown event will take place.

I had no idea the event just this number and that it might be a date as that seemed to be the easiest connection.

I reminded them again and again as **911** kept coming up afterwards and then the weekend before the event I reminded them all again that Tuesday was the day. I reminded my boss the day before the event that tomorrow was **9-11**. They all thought it would be any normal day, and they as I were completely shocked with the events that manifested on that day.

Before September 11th I arrived at **911** megs free on my hard drive, I again a month after this needed more room again so once again I started to remove files from my computer. I was almost expecting once again to get a number I can identify with. It was **1.11** gigs free.

I didn't find out until later that there are **111** days after **9-11-2001** left in the year.

I was starting to get **3-11** as well. I awoke from a dead sleep to look at the clock and there was **311**.

If you take **911** days after **9-11-2001** you arrive at **3-11-2004**

The Madrid Spain Train Attack was **3-11-2004**.

The third terror attack was in **London on 7-7-2005**. This was rather strange as I awoke with a song in my head that I hadn't heard in a long time on 7-5-2005. The song was Uncle Albert admiral Halsey. I listened to it several times on my computer and read the lyrics and there is an interesting thing in the lyrics. It says "if anything should happen we'll be sure to give a ring". The night before the attacks I had a loud ringing in my right ear at 9:11 PM. I was then expecting something to happen within 24 hours and I was correct when I saw the news in the morning.

Another strange thing occurred on February 18, 2010. I was at my friend's place in Austin, TX when his TV made a loud popping noise at me at 9:11 AM. I was expecting something for that day because of this. This is the day that a guy flew his airplane into the IRS building in Austin, TX that same morning. This was only 3 miles from where I was at the time. Here is a link to that article. [LINK](#)

One final prediction I made was for the year 2004. My friend Vannesa asked me if anything would happen that year and I replied "something biblical before the end of the year". I told her about September 11th before it happened so she wanted to know if I had anything else. Right on time the Tsunami occurred on Sunday, 26 December 2004 a few days before the end of the year 2004. The death toll was estimated at 230,000 people across fourteen countries.

Another strange thing occurred in the year 2005 to me. I was asleep and don't recall dreaming at the time when a loud voice says "Awaken!... Awaken!... Awaken!!!" each time getting louder. It was paced slowly and very deep but loud with metallic type echoes to the voice. I awoke sweating and terrified. I have never heard this voice before or since again. The time was right around the Jewish Passover of 2005.

One final interesting thing that happened in 2005 was I had a vision of Jesus. I was researching if people are still obligated to follow the 10 commandments. That very night as I was drifting off to sleep he appeared to me in what I guess would be called a vision. Very crisp and clear and not very long. He was standing in what seemed to be a white environment and he was wearing a full length white robe with sleeves and had a blue piece of clothing draping over his shoulder all the way down to his ankles. It seemed to be a looped piece of clothing not just a towel hanging off the shoulders. He was wearing sandals and in his right hand were what appeared to be the 10 commandments as they were stone and shaped like rectangles with rounded tops and he had two of them. His left arm and hand were stretched out to the 4 o'clock position. He didn't say anything to me just appeared in this fashion. The interesting thing is his clothing and skin glowed the colors they were. His skin glowed the color of his skin which was a slight tan and the white robe glowed white, his blue sash giving off a blue glow. I was watching a movie called the Gospel of John a few days later and found the person whom acted as Jesus in that movie had a very similar appearance. Here is an [image link](#). The only difference is Jesus as I saw him had a slightly longer beard and no grey hair. I guess I'll leave it to the reader to interpret. I take it as He is the commandments and the two new commandments encompass all of them.

For example I was at my friend's BBQ the day after I looked up these words associated with **414**. I just started to get 414 like I did with 9-11. I had my phone off the whole time and no clock was present.

I lifted up my phone to turn it on out of the blue and it was **4:14** on the nose. I was watching the movie Moses the next day with Ben Kingsley and the DVD paused at 4:14 PM for 2 seconds. There was no problem with the DVD before or after that. Coincidence is indeed possible but rather strange.

Here's more examples of "syncs" I get. Some people say you will notice the numbers on the clock at least two times a day. These are beyond clock watching and I rarely post those anyway although I get them all the time.

- I was driving and had reset my car's odometer to 0 miles. My console made a loud popping noise that alerted me to look down and see the mileage turn to 91.1 miles into my trip.
- My watch was stopped at exactly 5:11 down to the second hand
- My watch was stopped at exactly 2:11 - The watch runs on motion generated from my hand so when I take it off it might eventually stop.
- My watch was stopped at exactly 12:11
- Traveling in another car it made a popping noise like the time from above but in a different car. I looked down and it was 6:11

- I was sleeping at my friends place on the couch. The TV made a loud popping noise so I put on my glasses and checked the time on the clock it was 1:11. I have started to notice that something alerts me to the time by making this popping noise on the TV. The funny thing is it was turned off at the time but I've seen this happen weather off or on. It is very loud and gets your attention. So there is an intelligence alerting me to the time. The most interesting part of this was I actually heard a male voice say "It appears to be a change in pressure" then his voice faded away as he left the area. It is especially loud on DLP (Digital Laser Projection) TV's more so then on LCD (Liquid Crystal Display) monitors or TV's.

- My monitor made a popping noise at me at 8:11

- While playing poker with my friends, the person to my right turned on his Iphone. The time was 9:11 PM (Large numerals hard to miss). During this same game the guy to my left turns on his Iphone at 11:11 PM (Large numerals hard to miss) I didn't say anything to them but they seem to have unconsciously looked at the time. They weren't messing with their phones during the game except during those times.

- I was watching a DVD (seems to happen alot with DVD's) when the video stopped playing. I was thinking ok there is probably dirt or something on the disc so I was about to get up when I noticed the timer was stopped at exactly 11:11 into the video. The video then proceeded to play once I discovered this. I rewound the DVD to before that scene to see if it was indeed a surface problem with the DVD as you would expect it to stop in that very same spot. The DVD continued to play without any problems the next time through.

- Watching Movie with Friends and the DVD stopped all of a sudden. I looked at clock and it was **11:11**. The others saw it too and then they looked at me lol.

- Watching Movie at friends place and the IPOD on top of his TV turned on by itself and the time was **11:13** on his clock. I ran up to see what song it was as there was no sound and all I caught before it turned off was "**Collection**" in the title. The greek word for "Sign" σημειων has a numeric value of 1113 in Greek Gematria.

- I was watching the movie "**PI**" and the spot in the movie where the crazy Jewish guy talks and says Kabbalah, my speakers shot up very loud and the time was exactly **11:11**. Kabbalah is the study of numbers as they relate to the Hebrew language.

- I was filling my MP3 player with about 45 Gigs worth of songs and ran out of room on a song labeled "**Don't lose that number**". I was amused thinking about this on the way into the office that morning. I mean what are the odds I have a thing for numbers and this is the song it stops on?

While I was at a red light a Semi truck pulled up on my right side and I looked over and the number "**111**" was on the gas tank in nice big numerals. It was a white tank with just those 3 numerals.

- Searching for Disney stuff I was visitor **1111** on the page. In bold letters at bottom is the word "**Paradise**".

- Doing a goggle search on word "**Proskuneo**" I had **1111** search results. I had no idea what this word meant or what the circumstance was for me looking into it but the result was amusing.

- Phone call lasted 1 min 11seconds. As I hung up I also realized it was exactly 1:11.

- 1.11 Gigs of Music in my random play list. I put absolutely no thought into the list it's just how it worked out and its still 1.11 Gigs to this day.

- Was watching DVD movie that is 142 minutes long. I decided to stop it and finish the next day. I ran out to get some food the following day and when I sat down I looked at the timer on DVD it was stopped at 1hr **11**min **01** seconds.

11x101=1111

- I was linked to an article and guess what ... I was number "**111**" for total page views.

- I was sitting outside listening to music when all of a sudden someone wispered into my right ear and said "Ryan" which is my name. I then proceed to turn on my phone by pulling it out of my pocket and checking the time and its 1:11. This happened on 3-29-2014.

I get those ear ringing noises which can be attributed to Tinnitus. The ironic part is it's usually some number with 11 after the hour like a prompt saying "Hey check the time"

I would also like to add that there are many other persons out there that experience these numbers as I do. Some are dancing around in robes opening imaginary gates others claim there are 1,111 midwayers which is amusing and yet others claim to channel angels for generic definitions of the numbers people see. I myself don't buy any of the crap their selling. Read my articles and perhaps you will find other more meaningful reasons for the numbers.
